Pro-Elite

If it ain't broke, don't fix it. That's what we hear from the pros. The exceptional leather and proven pattern make our Pro-Elite® mitts the choice of serious catchers. Our players remain loyal to our mitts because they choose the tools of excellence.

Our tan leather is more supple than our black leather. Our tan leather forms a great pocket and has a loud pop that pitchers love. The black leather on the back provides stability throughout the season.

Our solid black mitts have increased in popularity recently. The professional #focus team members tell us that pitchers are throwing harder each year.

There's been a big shift from our 33.5" mitt to our 34" size. Again, we hear from our #focus team that pitchers are not only throwing harder and faster but they have more movement. The small increase in size provides a little margin for error and perhaps some peace of mind.

PRO-ELITE® BLACK & TAN

PRO CATCHERS MITT

STYLE NO.	SIZE	COLOR
CM3000BT	35"	BLACK & TAN
CM3000SBT	33.5"	BLACK & TAN
CM3000XSBT	32"	BLACK & TAN

Exclusive Japanese tanned steer hide allows for fast break in and extended life. Only the finest materials and hand craftsmanship are used to make these exceptional mitts. The soft tan leather pocket allows for great feel and gives the ball that extra POP which pitchers love to hear. The black leather backing is stiffer, and gives the mitt the right amount of support and increases its life.

PRO-ELITE® SOLID BLACK

PRO CATCHERS MITT

STYLE NO.	SIZE	COLOR
CM3000BK	35"	SOLID BLACK
CM3000SBK	33.5"	SOLID BLACK

These solid black mitts are perfect for a player looking for a stiffer glove. Compared to the original black & tan CM3000 series, this glove features the stiffer black leather on both the inside and outside of the glove.

STYLE NO.	SIZE	COLOR
CM3000MBK	34"	SOLID BLACK

In 2011 Martin Maldonado started his professional career using our small perisce CM3000XSBK, our 32" mitt. Soon, Maldonado switched to our most popular 33.5" size. Now pitchers are throwing faster and with more movement. In the 2017 season Maldonado used a custom 34" mitt and won the Rawlings Gold Glove Award®. That year Maldonado sharpied 100% on the back of his web. It was his reminder to give 100% of the pitches his 100% attention and focus.

PRO-ELITE® BLACK & TAN

TRAVEL BALL

STYLE NO.	SIZE	COLOR
CM3000BTJR	31.5"	BLACK & TAN

With youth baseball becoming increasingly more skilled and competitive the need for properly sized, high-quality equipment has grown. As a result, the game's best catcher's mitt offering, All-Star's CM3000, is adding a true junior size. This 31.5" Pro-Elite™ model combines all the benefits of the larger sizes in a more appropriate fit for hard core youth players. Exclusive Japanese tanned steer hide delivers a fast, custom break-in with professional level durability, all wrapped up in the iconic black & tan colorway.

S7-Elite

The S7-Elite™ and Pro-Elite™ mitts are designed for the highest level of play – but they are vastly different mitts. The largest difference is the pattern developed for the S7-Elite™ which has a deeper pocket.

The S7-Elite™ is for the older and more serious player who prefers a deeper/more secure pocket. The web lacing runs vertically for out-of-the-box strength. It is constructed with strong Japanese Tanned steerhide, a classic conventional wrist closure, a finger pad, and tapered fingers for reduced weight.

THE FOCUS FRAMER MINI SIZE

STYLE NO.	HAND	SIZE
CM150TM	RHT	29 INCHES

The Focus Framer is all about velocity. This mitt works similar skill sets as The Pocket, but is intended for faster ball speeds. It's undersized build combined with the faster velocity require some sharp focus.

THE POCKET MINI SIZE

STYLE NO.	HAND	SIZE
CM100TM	RHT	27 INCHES

An industry favorite, this tiny 27" mitt offers very little other than a pocket and a guaranteed way to increase your catching skills. Great for developing fast hands, catching in the correct location, blocking, and improving ball transfer speeds.

THE FLAPJACK MINI SIZE

STYLE NO.	HAND	SIZE
FG200TM	RHT	29 INCHES

A traditional flat pancake glove with a bit of a tweak - a slight depression for building pocket awareness. Stiff with no break. For infielders and catchers working on soft hands and fielding and transfer drills.

THE PICK MINI SIZE

STYLE NO.	HAND	SIZE
FG100TM	RHT	9.5 INCHES
FG100TM-FR	LHT	9.5 INCHES

Modeled after the CM100TM, the FG100TM fielder's training glove is an undersized 9.5" glove designed to help develop fast hands and improve coordination for fielders. Mitt was designed and developed after feedback received from catchers that their fielding teammates were stealing their CM100TMs!

THE ANVIL FULL SIZE

STYLE NO.	HAND	SIZE
FG3500TM	RHT	11.5"

The All-Star Anvil fielding glove is a multi-purpose trainer that uses added weight to improve fielding mechanics. The glove uses a standard 11.5" infield pattern but features an additional 1 lb. of weight.

THE ANVIL FULL SIZE

STYLE NO.	HAND	SIZE
CM3500TM	RHT	33.5"

The Anvil Catcher's Mitt, a multi-purpose trainer, that adds weight to improve receiving and transfer skills. In the popular 33.5" pattern, over 2 lbs. of weight is evenly added to the thumb and pinky pads. "Weight training" helps strengthen small muscles.

THE KEYHOLE FULL SIZE

STYLE NO.	HAND	SIZE
CM4000TM	RHT	35 INCH

This is the training mitt that everyone has been talking about. Pocket awareness is the key to accurate receiving, quick transfers, and manipulating the ball in the zone to convert balls into strikes. Pros use the Keyhole for soft toss drills often times with tennis balls or lite baseballs. Not recommended for real baseballs off a machine at high velocity.

THE DONUT FULL SIZE

STYLE NO.	HAND	SIZE
CM1000TM	RHT	33.5 INCH

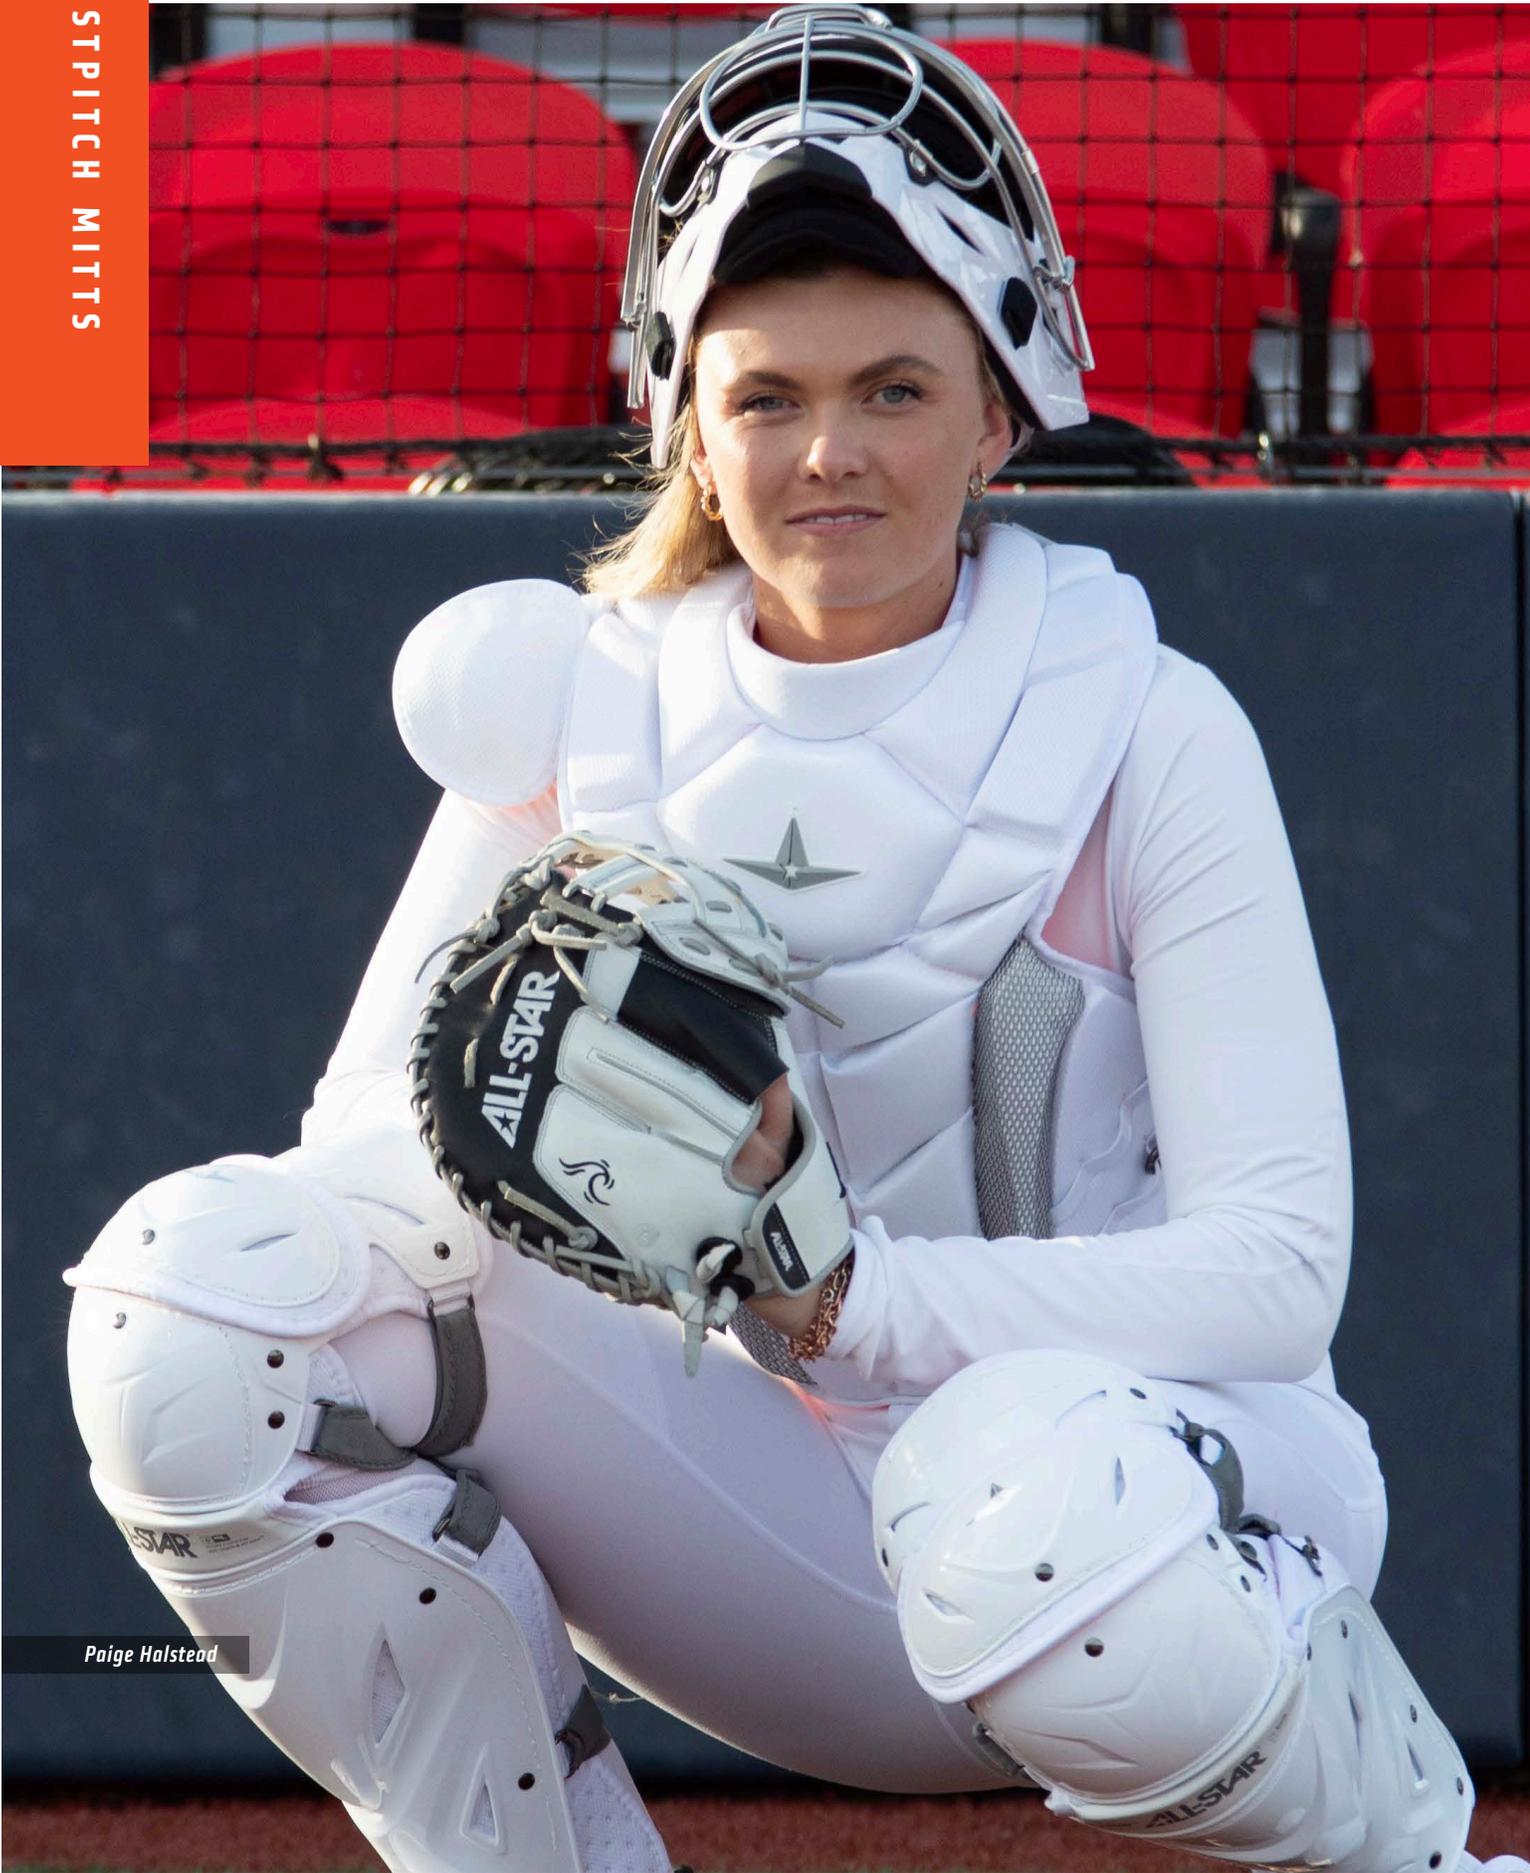

The absolute best mitt for working on quick transfer speeds. This vintage style catching mitt modernized with the All-Star® black/tan leather is a tool recommended by catchers, coaches, and teams for developing the fastest transfer speeds. When received into the pocket correctly, high speed balls can be caught when transferred to throwing hand.

THE EQUALIZER FULL SIZE

STYLE NO.	HAND	SIZE
CM3000TM	RHT	35 INCH

A full 35" professional grade mitt without a web! This training mitt is designed to force catchers to catch in the pocket and not the web. Unlike the other training gloves, this mitt can be used to catch live bull pens.

FASTPITCH CATCHERS MITT

STYLE NO.	SIZE	AGE	HAND	COLOR
CMW-PHX-34	34"	ADULT	RHT // LHT	WHITE & BLACK

- » Adjustable Pocket System (APS) for first-ever pocket customization
- » Low-profile wrist closure + GloveLocks™ provide a secure fit all game long
- » Cut weight design features less excess material while the finger hood and premium thumb cot offer the most comfort of any mitt we've ever built
- » Premium Grade Leather laced with Pro Stock Rawhide and a Pittards™ leather lining put this mitt in a class of its own
- » Pro Guard Padding (PGP) enables the comfort and confidence to handle all the extra velocity and movement at the highest levels of the game

CMW-PHX-34

Two years of development time was spent on this Paige Halstead x All-Star® catchers mitt. We started from the ground up – analyzing the catching position and the good, bad, and ugly of softball catching mitts in the industry. Core to Paige's personality, she wanted a legit glove that would be built to last and hold up to the constant demand placed on catchers. The final result is an *amazing* professional softball mitt with several industry firsts.

DESIGNED FOR ALL HANDS WITH GLOVELOCKS™

We hear it all the time: wrist closures don't stay tight enough. We developed a very simple solution that allows this mitt to fit the smallest to the largest hands. Simply pull two rawhide laces as tight as you need – then, **GET LOCKED IN!** with the included GloveLocks™.

POCKET ADJUSTABILITY

With two simple lace adjustments, the depth of the pocket can be easily customized. Controlling the ball with security is the key especially with today's pitchers spinning the ball like never before. This mitt allows any catcher to set the pocket depth she prefers before the first catch and even with each pitching change. This innovation also helps eliminate ball drops while breaking in the mitt.

FASTPITCH TRAINING MITT

AF FASTPITCH SERIES // FOCUS FRAMER

STYLE NO.	SIZE	HAND	COLOR	MINI SIZE

This Focus Framer is fastpitch-specific. With an undersized 29.5" pocket, the Fastpitch Focus Framer is intended to increase concentration during a variety of catcher-specific drills. This training mitt is a must-have for coaches and catchers who are focused on refining their craft.

DEFLEXION

INTRODUCING DEFLEXION™ TECHNOLOGY

More than 60 years of product innovation, collaboration with pro players, designers, engineers, and independent test labs has led us to Deflexion™, the latest protective creation out of the All-Star® Test Lab, and featured proudly in our new MVP Pro Helmet. All-new Deflexion™ technology is made of durable TPR Shock Hammocks placed along the forehead and chin to isolate your dome from direct impacts. The best way to protect a player is to disperse energy from direct impacts, and Deflexion™ is the answer. Its ability to absorb and disperse unwanted energy on impact is revolutionary.

I-BAR·BSP™

NEXT GENERATION I-BAR™ DESIGN

Back Swing Protection™ can only be found on the All-Star® MVP Pro Helmet, in a stealth graphite finish. With the evolution of swing path, back swings are a serious threat to player safety. Our next generation cage is designed to extend past the ear for protection against unintended impacts.

FOREHEAD & CHIN SHOCK HAMMOCKS

3DAIRMESH

CUTTING EDGE VENTILATION

In addition to our one of kind TPR Deflexion™ Hammocks, we're introducing new laser cut foam panels and oversized 3D Airmesh padding to reduce weight while dramatically increasing ventilation.

Constructed of injection molded magnesium, the FM4000MAG is the next evolution in umpire masks. Magnesium is the perfect material for an extremely light weight mask (16.8 oz), high vibration damping properties, and very high durability. The bars are a bit more bladed than our I-Bar Vision™ steel masks for outstanding strength and visibility. Over 16% of professional umpires choose All-Star magnesium.

The bars on the cage around the eye openings are flatter for increased range of view and to make the bars stronger. Instead of using a round steel wire, the I-BAR VISION™ cages utilize a flat bar which is comparable to an I-Beam used in building construction.

HARD SHELL UMPIRE CHEST PROTECTOR

STYLE NO.	SIZE	COLOR
CPU5000	12.5" - without extension	M.BK ONLY

Cobalt™ low profile, contoured hard shell Umpire Chest Protector. 3.7mm thick HDPE pre-curved armor plates with hinges conform to many body shapes. Removable extension adds another 3.5" of seamless protection for taller Officials. Pre-curved shoulders allow CPU to hang on and not slip down the body and provide superior collarbone protection. All armor plates have memory – bend them to form a custom shape. Shoulders guards can move outward by 1/2 inches for larger Officials. Removable shoulder gap cap for an even lower profile fit. Patented central cooling channel with removable and washable chest pads (or swap in a second dry set for long tournament series). The original DeltaFlex™ harness with hook ups located in front for easier on/off. Weight = 2.7 lbs and 3.3 lbs with extension.

ALL-STAR®

EQUIPMENT SIZE AND FIT INFORMATION

BASEBALL + FASTPITCH MVP HELMETS and SKULL CAPS

For the most accurate sizing, it is recommended to use the player's hat size, found by measuring the circumference of the player's head, and then using the provided size chart to determine the appropriate size.

Catching helmets must fit securely for proper performance. If a player measures in between sizes, it is best to select the smaller size. Please contact our team for any questions regarding proper helmet adjustments and fitting.

BASEBALL CHEST PROTECTORS

All-Star® chest protectors are measured from the indent at the top of the sternum to the player's navel. The chest protector should fit high, with the throat guard over the base of the neck. If the player measures in between All-Star® chest protector lengths, it is recommended to select the longer length. The player's correct measurement is more important than their age.

FASTPITCH CHEST PROTECTORS

To measure All-Star® Fastpitch chest protectors, find the intersection of the line that runs across the top of the hip bones and the vertical center line of the body. This should be near the navel. Then measure from that point to the indent at the top of the sternum. The chest protector should fit high with the throat guard over the base of the neck. If the player measures in between chest protector lengths, it is recommended to select the longer length. The player's correct measurement is more important than their age.

BASEBALL + FASTPITCH LEG GUARDS

Best done while seated, measure from center of the player's knee cap to the knot in the laces on the player's cleats. If the player measures in between leg guard sizes, it is

recommended to select the longer length. The player's correct measurement is more important than their age.
