sport inc

From humble beginnings in Auckland, New Zealand, where we watched our kids play sports, to over a decade later, our d3 products are now used by everyday household heroes to professional athletes across the globe.

In 2010, on the sidelines, simple questions were asked:
"Why is good strapping tape so hard to find?" "Why is it so expensive?"
- In that moment, the three dads became 'd3.'

Our absolute goal was to provide exceptional quality, reliable, fun, funky, cool, and slightly rebellious products that were traditionally considered boring. 'Doing things differently' became our initial catch cry, while focusing on creating products that help all bodies move more easily. Functional support, injury prevention, injury assistance, and rehabilitation are at the centre of our DNA.

With a presence in more than 30 countries around the world, our journey has only just begun. We aim to keep bodies moving, even through the niggles.
We are proud to be part of something exciting, inspiring, and lots of fun.

pvc sports tape

hand tear

This versatile sports tape, often used as sock tape, provides secure support for socks and shin guards during activity. It's also suitable for additional taping support, headbands, or addressing boot emergencies like broken laces, ensuring reliable performance across various applications.
Individually shrink-wrapped.

foam under wrap

latex free · feather light · stretch

Made from lightweight, stretchable polyurethane foam, this underwrap protects the skin, and minimizes discomfort during tape removal. It provides cushioning and a protective barrier for sports enthusiasts, athletes, and medical use. Thin and breathable, it secures shin guards or ice packs.
