

40 YEARS OF PROTECTION

A NOTE FROM THE OWNER

"WHAT A LONG STRANGE TRIP IT'S BEEN"!!! Kudo's to the Grateful Dead on that one! But, it's been a good trip. I mostly want to thank the current crew that keeps this train rolling, and especially want to thank all of those who I had the pleasure of working with in the past, that helped us get here. You know who you are. 40 years feels like a blip on the radar screen. Pretty much like when I started at 32, and will be "you can add" next year. Made many friends, and a few enemies along the trip, but over 40 years, who hasn't? Lost our founder (Rogers Douglas) and my brother (Jeff Douglas) along the way, but I know they are rooting Douglas on to continue this trip for another 40 years. See you all down the road because "THE ROAD GOES ON FOREVER AND THE PARTY NEVER ENDS!!! "Robert Earl Keen"

Doug

40 YEARS OF PROTECTION

SP18

I have been with the Toronto Argonauts for over 40 years and have used Douglas Pads since day 1. I can rely on them to deliver exceptional pads and the ability to recondition what they sell. The staff are top notch and listen to me as a customer to deliver any customization requests! One stop shopping.

-Danny Webb
Equipment Manager
Toronto Argonauts Football Club

Douglas sets the standard for shoulder pads. For 40 years they have provided quality shoulder pads that continue to evolve with our game. Made in the USA, second to none customer service, high quality handmade products, and superior protection are just a few of the things offered by Douglas. Thank you for continuing to keep the Arizona Cardinals safe and for your unwavering attention to detail.

-Jeff Schwimmer
Equipment Manager
Arizona Cardinals Football Club

The Winnipeg Blue Bombers have been ordering pads from Cookie and Douglas for over 15 years. Their detail, workmanship and customization are unmatched. Any questions or any kind of special work needed, Cookie and crew always find a way. All our players love wearing Douglas pads. Great service and prompt delivery on new orders and reconditioning. Looking forward to working with Cookie and Douglas for many more years.

-Brad Fotty
Equipment Manager
Winnipeg Blue Bombers

I'm proud to continue the tradition of providing Douglas pads to our players because they consistently prove that they have the players safety at the forefront of their company goals. On top of that the customer service is 10 out of 10 every time. They are always there to answer questions and help us meet our player's needs. Thank you for 40 years and here's to another 40.

-Ashley Nowak
Director of Equipment Operations
University of New Mexico

At The United States Naval Academy, we choose Douglas for numerous reasons. Douglas is the best shoulder pad in the marketplace, made by the best people, in the great state of Texas. The pads that our players wear are a fully customizable lightweight pad made with the best materials that provides our athletes exceptional protection, and comfort.

In my 23 years at Navy, Douglas has been the preferred choice annually by our midshipmen student athletes. Their product innovation and their customer service is superior to other companies. I would highly recommend Douglas to a parent or another person in the business and I congratulate the whole Douglas team on 40 years of servicing and protecting student athletes.

-Greg Morgenthaler
Sr. Associate AD Equipment Operations
United States Naval Academy

We use Douglas shoulder pads to protect our student athletes and keep them on the field. I have not worked with any other pad companies that can customize the pads as well as Douglas. The attention to detail and quality of the product cannot be beat. We are not only buying the best shoulder pads on the market but also get to work with the best staff in the country. The customer service from Bull, Cookie and the team is unmatched. They are dependable, trustworthy and truly want what is best for our student athletes. Looking forward to another 40 years with the great people of Douglas.

-Wes Edwards
Sports Equipment Performance Director
Oklahoma State University

Douglas Shoulder Pads have been the very best shoulder pads on the market during my 20 years working in college football. Douglas excels in protection and customization for each player's needs and wants. The air management technology is tried and true and produces top-level protection for our athletes. The Douglas reps are extremely knowledgeable, they provide elite customer service and are willing to go the extra mile to ensure we have the very best shoulder pads on the market, which allows our players to excel on the field. What I appreciate most is the level of protection, customer service and the attention to detail on every shoulder pad we receive.

-Bryan Harrod E.M.,C
Head Football Equipment Manager
Arizona State University

Douglas consistently delivers top-tier protection tailored to each athlete's position, body type, and playing style.

But what truly sets Douglas apart is their service. Their team is responsive, knowledgeable, and always ready to help us find the exact setup we need, no matter the request or timeline.

For us, they're more than just a shoulder pad supplier, they're a trusted partner in our program's success.

- Ian Guillotte
Director of Equipment Operations
University of Louisiana

We chose Douglas because it offers a quality product as well as top-notch service. With the ability to customize every spec of the pad, it gives our student-athletes the utmost confidence knowing they've been properly protected and confidence to perform.

-Eryk Jackson
Director of Football Equipment
USC

We protect our players with the best equipment possible. At the Buffalo Bills we believe Douglas provides us with the best shoulder pad on the market. Their customer service is top notch as well. From custom in person shoulder pad fittings to pad reconditioning Douglas does it all.

-Jeff Mazurek
Director of Equipment Operations
Buffalo Bills

The Detroit Lions have made Douglas our preferred choice of shoulder pads for several decades. Douglas is innovative and has evolved through the years to meet the demands of our players. The ability to scan our athletes, offer them a position-specific pad and customize for their specific need as well truly makes for a custom fit. The entire staff has a service first attitude and are able to turn rush orders when requested.

-Tim O'Neil
Equipment Manager
Detroit Lions

There's something very validating about seeing the confidence that is sparked in a player when fitting them in a Douglas pad. The excitement they exude in wanting to go perform at their highest level lets you know as an equipment manager that you're doing the best thing for your player and your team.

I wanted to share a quick note about Douglas shoulder pads — they continue to be one of the most trusted names in football protection. Known for their durability, comfort, and high-impact safety features,

Douglas pads consistently deliver the reliability athletes need on the field. No matter if it's high school, college, or at the professional level, players choose Douglas because they know their pads won't let them down.

-Gage Whitten
Director of Football Equipment & Apparel
University of Georgia Football

Douglas is the premier shoulder pad out in the market. They have a phenomenal product that is backed up by the best customer service. There has never been a time in my career that they have not delivered on something that was promised. I have been almost 100% Douglas dating back to 2007. I know what I am getting with them and have been able to work with the same reps since 2007, so they know exactly what I want when it comes time to order. There is no one that can match the product, customer service, people or the relationships.

-David Case, E.M.,C
Director of Football Equipment
TCU

For forty years, Douglas has been producing a product that has stood the test of time. For the past twenty of those years, they've given me peace of mind knowing my athletes are protected on the field. The customer service is unmatched, and their commitment to quality is evident in every product. Custom fit, custom built. There are limitless options to choose from. Player safety is always the forefront for Douglas when designing their pads, whether for Pee-Wee, College, or Professional players. Douglas truly does it all.

-Preston "Stick" Rogers, MS, E.M.,C
Head Equipment Manager
New England Patriots

At West Point, we try to use the best equipment to protect our cadet-athletes, and that is why we use Douglas Pads. With incredible quality and extraordinary customer service, I feel comfortable knowing that our athletes are safe and protected out on that field when they are wearing Douglas Pads.

-Tommy Cancalosi
Director of Football Equipment
Army West Point Athletics

As an Equipment Manager, I've worked with just about every brand out there—and Douglas Shoulder Pads stand in a league of their own. The quality, durability, and player-specific customization make my job easier and give our athletes the protection they need to play with confidence. Whether it's fitting a rookie or dialing in a setup for a veteran, Douglas delivers every time. Their customer service is top-notch, and their pads hold up season after season. Simply put, Douglas is the gold standard in shoulder protection.

-Gordon Gilroy
Equipment Manager
Saskatchewan Roughriders

Douglas makes us feel like we are part of their family. Easy to work with, always available and want the best protection for our players. They have the most reliable product and the ability to customize it anyway we want. Really appreciate our relationship and love working with their staff! Happy 40th LSD and "it's not your money" Anniversary!

-Don Toner
Equipment Manager
Carolina Panthers

Congratulations on the 40th anniversary of Douglas Shoulder Pads! Since I started my career in Equipment, there is a reason why my Equipment Rooms have always been stocked with Douglas Shoulder Pads--there is no one better than Douglas! The high quality, the best protection, the best customization, and the best customer service—nothing can top Douglas. Thank you, guys, for always being there to help keep my athletes safe!

-Shannon O'Hair
Head Football Equipment Manager
Colorado State University

Douglas has been the best in class for a long time. They have the best pads in the market but continue to innovate to ensure that they are always addressing the needs of every position group. Customer service is top notch and all needs are addressed as quickly as possible and quick turns are the norm in season. The quality of the shoulder pad is unmatched in the market. Douglas is great at customizing their pads for student athletes to ensure the best overall fit. We look forward to working with Douglas and their amazing staff for many more years to come.

-Chris Bacsik
Director of Football Equipment
Notre Dame

My first choice when selecting a shoulder pad for my athletes is Douglas Pads. They have proven that their pad provides some significant advantages over others. The product has been thoughtfully tested and designed to maximize protection and athlete performance. They continue to evolve their products to meet the needs of modern football players as the game changes while maintaining the level of protection and service everyone has come to expect. The level of service and expertise they provide through their dedicated and experienced group of staff members allows us to provide the exact fit and need for an athlete. Their ability to customize anything to fit any need for an athlete sets them apart. They know their product inside and out and can work with you to build whatever pad or insert you need for your athletes. With Douglas, you know you're doing right by the athlete.

-JD Jordan E.M.,C.
Associate Director of Equipment, Football
University of Cincinnati Football

Customer Service is job 1. The words I have heard and experienced from every Douglas employee for almost 37 years working with them.

I do not believe there is a better shoulder pad on the market. The reason is adaptability. They have changed and improved with the evolution of the game of football over 40 years not just with their pad and protection but with the mindset and philosophy of their people.

It is the people I have enjoyed most over my 37 years working with Douglas pads, and I congratulate Doug on a 40-year monumental achievement of excellence!

-Dan Siermine, E.M.,C.
Associate Athletic Director-Equipment/Licensing
Director
Air Force Academy Athletics

I have been the Director of Equipment at the University of Tennessee for 41 years. I have used Douglas Pads for the last 35+ years because the quality and service are unmatched. They have been consistently providing excellent protection for our athletes. I have seen a lot of companies come and go. I know that I can depend on Douglas Pads to deliver the best custom product!

Thanks, and congratulations on your success for 40 years!!!

-Roger Frazier
Director of Equipment
University of Tennessee

We choose Douglas because we want the best protection for our athletes. Douglas truly puts custom in custom shoulder pads. Their incredible customer service will help you find solutions to every situation no matter what. Douglas doesn't try to reinvent the wheel; they are simply committed to improving on time tested products. As the game changes, they adapt but they never get away from the air management system that has made them the best in the business. It only takes one trip to their shop to see the care their team puts into each pad as they assemble them by hand to the specs that you want.

-Matt Rutherford
Assistant AD, Equipment Operations
University of Texas

Our goal for Texas Tech Equipment is to fit and issue the best possible protective gear for our student athletes and Douglas Shoulder Pads allows us to do so. The entire company is made up of great people who care about their customers and those who wear their product.

★ ★ ★ ★ THE ULTIMATE SHOULDER PAD

Innovative, Technological Leader

Douglas has established itself as a pioneering force in the realm of air-management pads through a commitment to research and personalized service. The company has developed a superior product that utilizes 100% urethane open cell foam, which is encased in a lightweight nylon fabric. This innovative design not only reduces the overall weight of the pads but also enhances player comfort by providing an additional layer of cushioning and protection during play.

In addition to its advanced materials, Douglas introduced the first-ever removable channel system, specifically engineered to redirect impact away from the shoulder's upper region. This groundbreaking feature is particularly beneficial for athletes recovering from injuries or surgeries, as it offers targeted protection to vulnerable areas. In contrast to traditional pads that require costly and time-consuming factory refitting, Douglas's design allows for easy adjustments, ensuring that players can maintain optimal protection and performance without unnecessary delays.

Place Your Orders Early

Tight delivery schedules are usually no problem, but place your orders as early as possible. We pride ourselves on a quick delivery time. Orders will be processed as quickly as possible, but orders received in June, July, or August can take from 4 to 6 weeks. Ask your dealer to "Rush Order" your shoulder pad to save time! The "Rush Order," which carries an extra charge, will advance your order to the front of the line, thereby saving you "weeks" in potential delays.

Reconditioning And A Great Warranty

We also offer a reconditioning service that allows pads to be refurbished by the same craftsmen who originally made the product, so they are as good as new. All CP and SC pads are protected by one of the industry's best warranties.

Douglas Custom Pro Series

The Douglas Custom Pro (CP) has become the preferred choice among numerous professional, collegiate, and high school athletic programs. This preference is well-founded, as the CP pads are engineered with a variety of arch designs tailored to meet the specific needs of each position. This customization ensures that players receive a pad that aligns perfectly with their unique playing style, thereby enhancing their overall performance on the field.

In addition to the diverse arch options, every pad within the CP series is offered in a Flat design, catering to athletes who favor a low-profile fit. This feature is particularly beneficial for those who seek a streamlined appearance without compromising protection. Furthermore, for players requiring extra shoulder protection, the CP pads can be equipped with a

thicker main body cushion, providing an additional layer of protection during intense game play.

The CP series represents the pinnacle of Douglas' offerings, with each pad meticulously crafted to meet the individual specifications of the player. By selecting the Custom Pro Series, athletes can expect a product that not only enhances their performance but also promotes greater mobility and reduces the risk of fatigue. This commitment to customization and quality ensures that players are well-equipped to excel in their respective sports.

Recommended Care and Maintenance of Douglas Air Management Football Shoulder Pads and Umpire Vests

After every practice and game, your Douglas product should be inspected for any tears in the cushions or cracks in the plastic. If any are noticed, immediately send the product to Douglas for proper repair or replacement.

It is recommended that you set up a routine maintenance plan to clean and sanitize your Douglas Air Management cushions in between having them reconditioned by Douglas. Use a mild detergent and disinfectant, wipe clean, and then air dry. Never submerge in water or use a washing machine or dryer.

After each season, your Douglas product should be sent back to Douglas for reconditioning. Reconditioning includes inspecting the cushion for tears as well as cleaning and sanitizing the cushion. The plastic will be inspected for cracks and all other parts will be inspected, including hardware and Velcro. After inspection, replacement of parts may be recommended at an additional cost.

Our product is extremely durable and will last a long time if cared for properly and reconditioned. Due to the vast array of options we offer, we make the following recommendations with regards to Douglas Air Management cushions in order to maintain maximum protection:

- All ½" Main Body cushions should be replaced every 3-4 years
- All ¾" Main Body cushions should be replaced every 5-6 years

Any product 10 years or older should be discarded and replaced with new product.

Air-Management Cushion

Layer of foam padding under the Arch.

Epaulets

Upper plastic shell provides protection to the AC joints and shoulders.

Cups

Lower plastic shell provides protection to the AC joints and shoulders.

Arch

Plastic outer shell provides full chest coverage.

Bias

Also known as the trim or binding. The bias encloses open cell foam used for Air-Management Cushions.

Channel Padding

Additional foam padding inserts added on the underside of the Air-Management Cushion to provide more protection.

Deltoid Padding

Additional closed cell foam piece attached to Air-Management cushion designed to protect deltoid muscles.

Belt & Buckles or Straps

Adjustable tightening system located on the bottom of the pad to prevent unwanted pad movement.

Swivle Front

Moveable attachment added to the front of pads allowing for maximum player movement.

AIR-MANAGEMENT

How Air-Management Works

The shoulder pad's protective cushioning is constructed from open cell foam, which contains a multitude of minuscule air cells. By bonding the outer fabric to this foam, a sealed environment is established that effectively traps air within the cushion. When an external force is applied to the shoulder pad's shell, known as the load spreader, the shell exerts pressure on the cushion. This pressure causes the air within the foam cells to be displaced in all directions, creating a 360-degree dispersion of the impact force.

This mechanism significantly reduces the intensity of the force that reaches the body at the point of impact. The broader area over which the force is distributed minimizes the potential for injury, thereby enhancing the protective capabilities of the shoulder pad. The innovative design of the air-management system not only improves comfort but also plays a crucial role in protecting athletes and reducing trauma to the body during physical activities.

SELECTING YOUR NEW PADS

Since its establishment in 1986, the team at Douglas has dedicated itself to providing personalized assistance to customers in choosing the most suitable pads and options tailored to their specific requirements. Our primary objective is to equip each athlete with pads that enable them to perform at their peak potential, ensuring they have the necessary support and protection during competition.

It is crucial to remember that when measuring for AC joints, one should avoid placing the measuring tape directly on the body. Instead, utilizing a yardstick is recommended as the most effective tool for this purpose. For any inquiries related to the correct measurement techniques for Douglas shoulder pads, please do not hesitate to contact your local dealer for expert guidance.

Taking Your AC Measurement

Sku# AK-WZ

Wizard KickScope Elite Pro Holder

- Super portable- handy legs fold & telescope down to 9.5".
- Lightweight yet stable hold. Weighs just 9.8 oz.
- Includes a handy durable travel tube.
- Works with or without place kick blocks.
- Stainless steel & aluminum construction.
- Designed by kickers for kickers.
- Durable thick & soft rubber caps for a great hold.
- Stainless steel legs & black caps.
- Manufactured & assembled in the USA- patent #1035226.

Available in Red/Black

Sku# AK-WZ-KS

Triplex Stealth Tee

- The same inside kick notch as in the GROUND ZERO ONSIDE tee.
- Ball receiving recess for conventional kickoffs is cut away and scalloped to reduce the surface area of contact.
- The tip of the football doesn't touch any tee structure allowing for optimum lift and minimal resistance!
- Reshaped middle recess for squib kicks.

Sku# AK-T3N1

Ground Zero

The Ground Zero Kick Off Tees are the most innovative and popular kicking tees in the football marketplace.

Sku# AK-GZ1 (1")
Sku# AK-GZ2 (2")

Ground Zero Onside

The Ground Zero Onside is a 2 in 1 tee manufactured in the color black. It is a one-inch kick off tee (identical to the Ground Zero 1) that includes a notch that allows kickers to support the football with its tip on the ground for onside and squib kicks.

Sku# AK-GZOS

Toe-Tal Tee

This 4-in-1 tee, introduced in the mid 1980s, provides 4 modes of use including two kicking tees & two kicking blocks.

About the FX14

Unleash Your Full Potential on the Field with the FX14 Shoulder Pad

- Streamlined, low-profile design for maximum range of motion
- Cut-away arch and epaulet for a lightweight, flexible fit
- Contoured cups provide superior protection without the bulk

Say goodbye to restrictive shoulder pads that limit your movement. The FX14 was engineered to give you the protection you need without compromising your ability to perform at the highest level. Its innovative design features a cut-away arch and epaulet that allow for a full range of motion, so you can move quickly and explosively without feeling weighed down. And the contoured cups provide game-changing protection, keeping you protected from big hits without the typical shoulder pad heft. If you're ready to take your game to new heights, the FX14 is the shoulder pad that will get you there.

Weight is approximately 4.3 lbs.

Douglas Stock Custom Series – Built on 40 Years of Proven Performance

Introducing the **Douglas Stock Custom Series** – a bold new line of football shoulder pads built on four decades of industry-leading experience and innovation. Designed for athletes who demand the best, the Stock Custom Series combines trusted Douglas engineering with modern upgrades to deliver elite-level protection and comfort straight off the shelf. This series will replace the Douglas SP shoulder pad line.

At the core of this new series is the renowned Douglas Air-Management System, trusted by professionals and top-level athletes for years. This technology absorbs and disperses impact to keep players protected through every hit, snap after snap.

Each Stock Custom pad is constructed using the same lightweight plastic and high-performance foam found in our top-tier CP Series, offering premium protection without sacrificing speed or mobility.

New to this line is the removable channel system, allowing players and equipment managers to easily adjust, clean, or replace key components – maximizing pad life, player comfort and maximum protection.

Available exclusively in a sleek Black cushion, the Stock Custom Series offers a bold, professional look that pairs perfectly with its performance pedigree.

Douglas Stock Custom Series – Engineered for Today's Game. Backed by 40 Years of Excellence.

Experience Is Key

We pride ourselves in being a small, family run company in Houston, Texas. Our manufacturing department is one of the most experienced in the sports industry with over 350 years of combined experience in building shoulder pads.

Hands On Approach

Douglas has taken a hands on approach to building shoulder pads since day one. There is not a single pad that goes down our manufacturing line that isn't touched by at least 40 hands from start to finish. Our attention to detail sets us apart from our competition.

Custom Channel System

This unique system diverts impact away from the top of the shoulder. The removable Velcro attachments assure precise placement of additional padding exactly where you need it. The standard thickness comes in 1/2".

★ ★ ★ ★ LEGACY SERIES

About Our Legacy Pads

Introduced in 2017, the Legacy Shoulder Pad Series was named by our clientele to honor the exceptional contributions of Rogers Douglas, Doug Douglas, and Jeff Douglas, who have dedicated four decades to the design and manufacture of the most protective shoulder pads available. This series is crafted with the intention of transforming the performance of athletes on the field, as the innovative designs incorporated within it are tailored to enhance gameplay. The Legacy Series stands out as one of the most streamlined and low-profile shoulder pad collections currently offered, ensuring that athletes can maintain agility and comfort without compromising on safety.

These shoulder pads are engineered to be remarkably lightweight while still delivering unparalleled protection through the advanced Air-Management system. This unique feature not only safeguards the athlete but also enhances their field of vision, allowing for improved awareness during play due to the pads' sleek design. We are confident that athletes will appreciate the thoughtful engineering and performance benefits of the Legacy Series, and we trust that these pads will significantly elevate their game experience.

● LEGACY JD

SKILL POSITIONS — QUARTERBACKS, RUNNING BACKS, WIDE RECEIVERS, DEFENSIVE BACKS, KICKERS, PUNTERS

● Add Extra Protection to Your Pads with a Douglas Legacy Rib Combo

This removable wrap-around rib protector delivers maximum torso protection. Extra grommet holes allow players to raise or lower the Rib Combo. The Rib Combo is available in 4" model only.

● Sku# AL-RIB4

About the Legacy JD

The JD style shoulder pad in the Legacy Series is designed for the skill positions of QB, RB, WR, DB and K/P. The JD's lightweight, streamlined design makes it the perfect pad for players that require a greater range of motion to play their particular position. The JD's smaller epaulets, Reverse Cups, and swivel front, give the player more flexibility for throwing and receiving passes. The Air-Management System of open cell foam, removable channels, and streamlined plastic, along with its Cantilevered design, help disperse the energy of contact to the chest and back of the player.

JCP SERIES

JUNIOR CUSTOM PRO

ALL POSITIONS

About the Junior Custom Pro

This pad is for those elite youth players that want the same pad and protection the professional and collegiate athletes wear. The JCP is the only USA made youth custom pad on the market. The JCP was designed and is made in the same factory as the CP and SC shoulder pads. Its lightweight, streamline design offers the maximum mobility for your youth athlete.

The Cantilever design is the most protective pad for this level of football. The streamlined Reverse Cup and Super Shaved SC-18 epaulets provide great coverage for the athlete without restricting their play. Order the JCP in your favorite teams' color at no additional cost.

★ ★ ★ JP SERIES

JP24 ALL POSITIONS

About the JP 24

The JP24 is the “mini me” to our 24SW, which is our most popular shoulder pad at the professional and college levels. Designed to fit the youth/junior players perfectly, not like those other bulky pads on the market. The JP24 features the Air-Management System, designed to lessen the blow to the body. With our new streamlined design, this lightweight pad is perfect for your player. The JP24 features a lowered Cantilever to sit closer to the body and absorb those big hits. Flat pads with belts are a “no no” in our book for players under the age of 15, as these players have not developed muscularly enough to properly wear a Flat pad. With our low-profile Cantilever pad with elastic straps, your player will have maximum protection on the field.

Weight approximately 2.9 lbs.

Available in XS-2XL

Removable Back Plate

Our JP back plate is the right way to get extra lower back protection. The extra grommet holes allow players to raise or lower the back plate. One size fits all JP Series pads.

Sku# AJ-BP

COMMANDO THE FIELD

The Douglas Commando

is a lightweight, low-profile shoulder pad at an economical price. Due to the fact that youth football players are not muscularly developed, "Flat Pads" are not recommended for them. Therefore, the Commando is constructed featuring a shock absorbing Cantilever design, reducing the energy absorbed by the players body. The dual density construction will also assist in the energy absorption and dispersion aspects of the shoulder pad. The Commando features an extended front, adding more protection for the sternum.

SKILL POSITIONS

SPOB

Douglas Zena- Redesigned for today's female athletes

Douglas is indeed the leader when it comes to protecting women in football. The Douglas Zena series, specifically designed for female athletes, showcases our commitment to ensuring optimal protection and comfort.

Our redesign focused on creating a streamlined and low-profile design, still offering a tailored fit that considers the body shape and needs of female athletes. We have reduced the overall weight of both shoulder pads in the series without compromising protection. We have streamlined both arches to fit the female body much better. The epaulet and cups being used are our very popular Super Shaved SC-18 and Reverse Cup combination, which is often used at the professional level. These improvements will greatly enhance comfort and mobility while wearing the Zena shoulder pad.

About the Zena PM

The Zena PM is the most versatile pad offered in our Zena line. Its low profile, light weight construction caters to all skill positions. It's recommended for the QB, RB, WR, DB, LB, K, and P positions.

Weight approximately 4.25 lbs.

Available in XS-L with A or B Cups.

WARNING

You should consult a qualified doctor prior to playing sports or using this equipment. Sporting protective equipment is designed to minimize the possibility of injury to persons. Use of this equipment does not guarantee that you will be protected from injury, including serious, disabling, permanent injury or death as a result of playing sports. Any modification or alteration could reduce the protective capacity.

Protective equipment can contribute to heat related illnesses including stroke. Treatment of dehydration and heat illness should take place immediately. If symptoms persist or include disorientation, heat flush, abnormal chills, vomiting, nausea and or altered consciousness, there is a real risk of heat stroke. This is a serious condition that requires immediate medical attention. Dial 911 and seek assistance from a doctor or certified athletic trainer for emergency medical services.
