

WHAT TO USE WHEN

Choosing a heat printing method can be confusing.

Use this chart to help determine the print method to use based on the quantity you need and the number of colors in the design. This should be used as a guideline, other factors such as the desired finish or fabric type, may dictate the method to use.

Heat Transfer Vinyl
*is great for personalizing
apparel such as
sports uniforms.*

Digital Transfers
*use inks on a printable
material to create
full color logos.*

Screen Printed Transfers
*have the same feel
and durability as
direct screen printing.*

**Full Color Screen
Printed Transfers**
*are a more economical
full color option
for larger quantities.*
